

PART 3

For questions **25 – 34**, read the text below. Use the word given in capitals at the end of some of the lines to form a word that fits in the gap **in the same line**.

The Montessori education method

Montessori is an educational approach **(25)**
..... by Maria Montessori. Born in Italy in 1870, she studied
medicine and graduated as the first female doctor. She took
care of children diagnosed as subnormal, and excluded from
traditional schools. She devised special materials to help them
learn through **(26)** and achieved
some **(27)** results.
She became an **(28)** and
anthropologist and went on studying children in all conditions
throughout the world, discovering universal principles
(29) the development of all children.
Montessori education is practised in an estimated 20,000
schools **(30)** , serving children from
birth to 18 years old.
The basic principle is that children learn best when they are
(31) involved in the learning process.
The environment in which they thrive should be especially
prepared to meet their physical, cognitive and social needs.
So Montessori education is characterized by an
(32) on independence, freedom
within limits, and respect for a child's natural
(33) as well as
(34) advancements in society.
